That's the excuse offered by some for the "mercerized cotton" cheat, to say nothing about lower quaiity. However, the man who demands lower prices ought to have what he calls for. He no doubt pays more than he ought to; the idea is to work the man who wants the best quality, but substitute the "mercerized cotton" cheat, and the additional profit is pocketed with a smile.

Better stick to the "all-wool." There's no trick or cheat about it. Look for the label, "H. S. & M." Small thing to look for, a big thing to find-\$15 to \$25.

ADVERTISE IN THE WEEKLY JOURNAL

The attention of merchants and advertisers in general is directed to the fact that The Journal's WEEKLY EDITION is now read by practically every reader in the county outside of the city who does not take the daily.

Advertisements in the DAILY reach practically all of the city people and a large part of the country people; but an advertisement in both the DAILY and the WEEKLY will reach all of them both city and country. THE WEEKLY JOURNAL is a compila-
